## COURSE OF STUDY.

WILL EMBRACE FOUR YEARS OF THREE TERMS EACH.

---

PREPARATORY DEPARTMENT.

## DIVISION A.

Reading, Writing, Spelling, Arithmetic, Geography, Language Lessons, Music, Drawing and impromptu Compositions.

## NORMAL DEPARTMENT.

## JUNIOR YEAR.

*First Term*—Writing, Spelling, Reading, Grammar. History, Geography, Music and Drawing.

*Second Term*—Spelling, Reading, Geography completed, Writing, Music and History.

*Third Term*—Spelling, Reading, Grammar, History, Physiology begun and Music.

## MIDDLE YEAR.

*First Term*—Latin, History U. S. completed, Reading, Grammar, Physiology completed, Writing and Arithmetic.

*Second Term*—Latin, Physical Geography begun, Reading, Grammar, Arithmetic completed, Natural Philosophy and Music.

*Third Term*—Physical Geography, Reading, Grammar, Algebra, Natural Philosophy and Music.

## SENIOR YEAR.

*First Term*—Algebra, General History, Civil Government, Rhetoric and English Literature, Psychology, Music and Latin.

*Second Term*—Algebra, General History, Latin, Civil Government, Rhetoric, English Literature, Psychology and Music.

*Third Term*—General History, Latin, Zoology, Book-keeping and Music.

Theory and daily practice in teaching are discussed throughout the entire session by lectures, giving the most improved methods of imparting instruction.

## ELECTIVE COURSE.

An Elective Course for those teachers who are engaged in or have been engaged in teaching and who would like to better equip themselves for the work of teaching; or for those teachers who desire to raise their grades of scholarship and prepare for a wider field of usefulness, and who have not the time or means to take a full course.

This course is open to all teachers holding certificates from County Examiners. These teachers may, with the advice of the faculty, select their own branches of study, or enter whatever classes they desire and rub up on the branches in which they are most deficient.

## GENERAL INFORMATION.

---

### STATE COLORED NORMAL SCHOOL, GOLDSBORO, N. C.

---

This school has been established by the State Board of Education, under an Act of the General Assembly of North Carolina, and is designed to assist, as far as possible, in the education and training of teachers in the arts and methods of imparting instruction in the several branches of study taught in the public free schools of the State.

#### LOCATION.

This school is located at Goldsboro. No place in the State offers superior advantages. To the great body or masses of colored people for whom the school has been established, Goldsboro is the most accessible point in the State. From the many railroads centering here and reaching out into the adjacent counties in every direction, Goldsboro has been styled "The Cross-Road of Eastern North Carolina." The locality is healthful, the city is excellently laid off and is growing quite rapidly. The people are progressive, and friendly to every laudable undertaking. The moral sentiment of the community is fair. There are colored churches of nearly every denomination, having regular worship each Sabbath and prayer-meetings during the week. Students may spend their sessions here both pleasantly and profitably.

#### THE NEED OF SUCH A SCHOOL.

The need of such a school in this part of the State is apparent to all who are in anywise acquainted with the educational work among the colored people. There is a growing and pressing demand for properly trained teachers in nearly every county in Eastern North Carolina. In many of these counties the school fund apportioned to the various colored districts has lapsed from year to year for want of competent teachers.

The teacher is the soul and success of any school. If the public schools, through which the State is endeavoring to elevate the race and render it fit for the important duties and responsibilities of citizenship, become efficient in promoting the end in view, they must have well qualified, earnest and devoted teachers.

No amount of money, however large, no accumulation of machinery, however splendid, can accomplish the work in the absence of such qualifications. Therefore the Local Board of Directors express the hope that the people for whose special benefit the Goldsboro State Normal School has been established will so appreciate the opportunities offered as to render it an inducement to continue and enlarge State aid.

#### BOARD AND LODGING.

Every student is expected to provide for his or her own support. Good board can be secured in the city at from \$5 to \$8 per month, including lodging, lights and fuel. Even these rates can be somewhat reduced by the clubbing system employed by many of the young men. Those who intend entering the school should communicate with the Principal, to the end that they may have the benefit of his aid in securing suitable boarding places.

#### CONDITIONS OF ADMISSION.

Every applicant for admission must furnish acceptable evidence of a good moral character, and of a sufficient age to be interested in all duties assigned them in connection with the school, that the same might be performed with alacrity, and be sufficiently advanced in studies to enter our first-year course. Each student must promise, upon becoming a member of the school, to carefully observe all rules and regulations of the school. Students will be admitted at any time, but are especially urged to enter at the beginning of the school year.

#### EXPENSES.

There are no expenses whatever to residents of the State. All text-books not in the school library will have to be purchased by the student.

#### DISCIPLINE.

The discipline of the school will be mild but firm. Students will be expected to deport themselves as ladies and gentlemen, both in and out of the school, cheerfully obey the rules and regulations, cultivate habits of neatness, moral rectitude and punctuality.

## LIBRARY.

A small but well-selected library of the best standard literature, text-books, teachers' aids, history, charts, etc., are on hand for the use of students free of charge, the only requirement being that all books thus loaned be taken care of and returned before the pupil leaves the school, though his absence be merely temporary.

## STANDING AND PROMOTION.

The student's daily standing, modified by failures in attendance and deportment, has much to do in determining the results of the term. The scale of markings ranges from perfect 100, to inexcusable failure 0. The examinations, save in a few instances, are all in writing. An average of 65 per cent. is necessary for promotion.

## NON-SECTARIAN.

In the conduct of the school, sectarian and partisan views will be studiously avoided. Each student will be left free to the enjoyment of his own religious and political opinions. The object of the school is to fit students for the work of the school-room and none other.

## LYCEUM AND BIBLE READING.

In the weekly meetings of the Normal Lyceum, general and educational topics are discussed. The good results already shown cannot be overestimated. Bible Readings are held weekly for the purpose of promoting an earnest Christian life among its members and of making them more useful in the service of God. All students are expected to attend each of these meetings.

## MUSIC.

VOCAL MUSIC.—This branch of musical culture is now being required by many educators and superintendents of public and city graded schools. Being aware of this fact, and wishing to send out teachers thoroughly qualified and equipped for the execution of all duties and requirements of the school-room, provisions have been made that all students of the Normal receive daily lessons and thorough training in note-reading and sight-singing at cost.

INSTRUMENTAL MUSIC being considered a luxury, cannot be furnished free, but provisions have been made that students may receive lessons on the piano for \$1.25 per month, payable in advance.

#### THE INSTITUTE.

It has been the custom for years to hold an Institute, beginning at the termination of each school year, for the benefit of the colored teachers of Eastern North Carolina. This department will begin immediately after the close of the regular school term—May 17th, and continue one month. We exhort the colored teachers of Eastern North Carolina to exert every available effort to make the next Institute a success, not only scholastically and socially, but also numerically. "Let work be the watchword of the hour."

#### CERTIFICATES OF PROFICIENCY.

Students who complete the course of study herein prescribed in the Junior Year, and whose deportment while members of the school has been satisfactory, will be awarded certificates of recommendation as teachers for the public schools. Those who complete the full course will be awarded diplomas. Such certificates and diplomas will be awarded only upon evidences of thorough proficiency, and subject to such restriction as to age as may hereafter be adopted.

The management of the school will seek by every available means to secure profitable fields of labor for deserving students and graduates, and bespeak the active co-operation of County Examiners and all educators in this effort.

#### INFORMATION.

For further information than herein specified concerning the school, address the Principal, or Secretary of the Local Board of Directors.
